

Amber CB500 CFexpress™ Type B Memory Card

8K Video
Recording

Up to 1 TB

VPG400

Extra
Durability

Biwin Amber CB500 CFexpress™ 4.0 Type B memory card is built for professional grade 8K video capture with read speeds up to 3750 MB/s and write speeds up to 3500 MB/s. Its advanced heat dissipation supports long-duration shoots without interruption. With durability against extreme temperatures, impacts, and environmental challenges, this card brings reliable performance despite even the worst conditions.

► Product Features

Unleash Your Creativity with High-Speed Storage

With write speeds up to 3500 MB/s, this card is designed for high-quality imaging, supporting 4K, 6K, and 8K RAW video recording (and prepared for future 12K cameras with CFexpress™ Type B slots) to fully unleash your device's potential. VPG400 certification ensures a continuous write speed averaging 3400 MB/s. High frame rates, bitrates, and resolution provide greater creative freedom.

High Capacity, No Limits on Productivity

With capacity options ranging from 128 GB to 1 TB, our Amber CB500 provides ample space for recording essential footage, behind-the-scenes moments, and action-packed highlights, ensuring that storage is never a limitation. Ideal for photographers and videographers, the large capacity supports creative freedom and keeps your workflow uninterrupted.

Stay Cool. Stay Creative

Biwin CB500 integrates intelligent thermal control algorithms, thermal conductive gel layers, and an aluminum alloy shell to ensure optimal heat dissipation. This advanced cooling design prevents overheating, letting you focus on creative production.

Built Tough, Designed to Last

Biwin Amber CB500 features advanced durability to withstand extreme conditions. Built to resist heat, cold, shock, magnetic interference, X-rays, and physical wear, this card ensures robust protection and reliable performance under harsh conditions.

► Biwin Storage Amber Series

For decades, Biwin has made the critical storage and memory you'll find in many of the leading digital devices that have defined our digital world. The Biwin consumer brand offers the best of Biwin's experience, a range of SSDs, DRAM, memory cards and related accessories that will help you get the most out of your devices.

Biwin Amber is ideal for on-the-go professionals who need superior mobile storage and memory solutions.

► Specifications

Model Name	Biwin Amber CB500			
Type	CFexpress™ 4.0 Type B Card			
Interface	PCIe Gen4x2			
Capacity	128 GB	256 GB	512 GB	1 TB
Sequential Read (Up to)	3700 MB/s	3700 MB/s	3750 MB/s	3750 MB/s
Sequential Write (Up to)	3400 MB/s	3400 MB/s	3500 MB/s	3500 MB/s
Video Format	8K RAW			
VPG	VPG400			
Dimensions	38.50 × 29.60 × 3.80 mm			
Weight	9.1 g			
Operating Temperature	-12°C to +72°C			
Storage Temperature	-20°C to +85°C			
Certifications	RoHS, WEEE, FCC, CE, VCCI, RCM, KCC, BSMI			
Warranty	Limited Lifetime			

1. Tested by BIWIN labs. Actual performance may vary due to systems, devices, or environment.
2. Maintenance and future updates are required throughout the product life cycle. Specifications are subject to change without notice.
3. The pictures are for illustration only. Actual products may vary due to product enhancements or changes.
4. Not all products are sold in all regions of the world.
5. As used for storage capacity, one megabyte (MB) = one million bytes, one gigabyte (GB) = one billion bytes, and one terabyte (TB) = one trillion bytes. Total accessible capacity varies depending on the operating environment. As used for buffer or cache, one megabyte (MB) = 1,048,576 bytes. As used for transfer rate or interface, megabyte per second (MB/s) = one million bytes per second, and gigabyte per second (GB/s) = one billion bytes per second.
